

# EAS MODEL 5000H with hinged cover For commercial applications

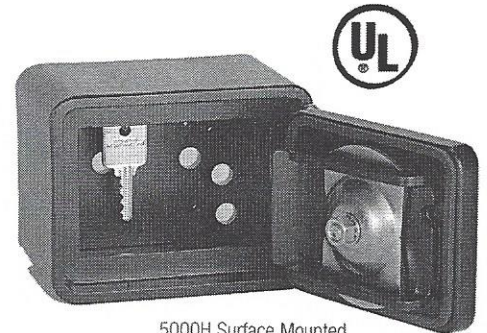

5000HR Recessed Mounted  
with hinged cover

The **5000H Model** is a high-security lock box that is designed for multiple uses including emergency, industrial, and government use. This model, which accommodates up to 10 building/access keys, can be used for general key control or as part of the EAS Emergency Access System. Along with key storage, the 5000H is ideal for housing access cards and various small entry items and is versatile for both exterior and interior applications.

- High security Medeco lock (U.L. listed)
- Polyester powder coat; black
- Interior capacity accommodates up to 10 keys or access cards

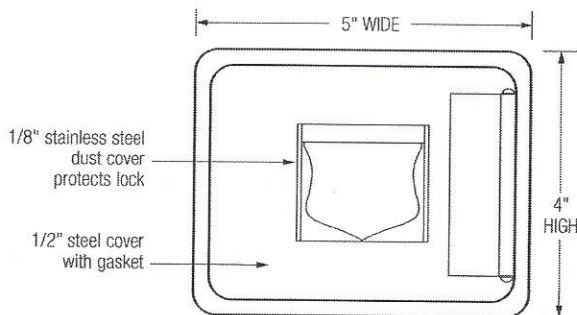

## Options

- U.L. listed tamper switch with bracket
- Recessed Mounting Kit (5000HRMK) for new construction only when installing the recessed model 5000HR
